

New PCL-LT8000 Series

Connection Terminals

- 1 LAN (RJ-45)
- 2 Video / S-Video
- 3 PC/Component video in-1
- 4 Monitor out
- 5 PC/Component video in-2
- 6 HDMI
- 7 DVI-D in (HDCP)
- 8 Power in (3-pin with earth terminal)
- 9 Audio in [RCA (L/R)]
- 10 Audio in-1
- 11 Audio out
- 12 Audio in-2
- 13 Serial RS-232C (I/O)
- 14 Remote in/out
- 15 Audio DVI-D

* Photo is specifically for PCL-LT8000X / PCL-LT8000W

Screen Size and Projection Distance

Refer to the following table to determine the screen size and projection distance.

Replacement Lenses

Specifications

Model	PCL-LT8000X	PCL-LT8000W	PCL-LT8000U
Display Technology	3 x 0.79" LCD	3 x 0.75" LCD	3 x 0.76" LCD
Resolution	XGA (1024 x 768)	WXGA (1280 x 800)	WUXGA (1920 x 1200)
Brightness	7100 ANSI lumens	6600 ANSI lumens	5600 ANSI lumens
Contrast Ratio	5000:1 (Iris On)		
Projection Lens	f = 24.0-43.2mm, F = 1.8-2.6		
Zoom / Focus	Powered Focus / Zoom (Zoom Ratio 1.8:1)		
Throw Ratio	100" @ 3.0m	100" @ 3.1m	100" @ 3.0m
Picture Size	40"- 300" (100" = 3.1m)		
Lamp Life	4,000 hours (Std) / 6,000 hours (Eco)		
Computer Compatibility	VGA, SVGA, XGA, SXGA, WXGA, UXGA, Mac		
Speaker	1 x 10W		
Video Compatibility	PAL, SECAM, NTSC 4.43, PAL-M, PAL-N, 480i, 480p, 576i, 576p, 720p, 1080p and 1080i		
Input	PC: 5 BNC x 1, HDMI x 1 PC Audio: Stereo mini jack, 3.5mm x 3, Video: BNC x 1, Video Audio in: RCA (L/R) x 2		PC: 5 BNC x 1, HDMI x 1, PC Audio: Stereo mini jack, 3.5mm x 3, Video: BNC x 1, Video Audio in: RCA (L/R) x 2, USB-A x 1 HDMI in MHL x 1
Output	RGB: mini D-sub 15-pin x 1 / Audio: Stereo mini jack (3.5mm x 1) / LAN		
Control	LAN (RJ-45): x 1 (projector control and display, * applied on PCL-LT8000U only), RS232 (in): D-sub 9-pin (male) x 1 (direct command is available), Wired remote (in): x 1 (3.5mm stereo mini jack), Wired remote (out): x 1 (3.5mm stereo mini jack)		
Dimensions (W x H x D)	48.0 x 18.0 x 42.0 cm (18.8" x 7.0" x 16.5")		
Weight	9.9kg (21.8lbs)		
Power Supply	AC 100 - 240V, 50/60 Hz		
Other Features	1. 360° Lens Shift 2. Auto Ceiling/Keystone 3. Top Lamp Cover Replacement 4. Anti-Theft Bar & Lock 5. Side Filter Access		6. Compatible with MHL* 7. Closed Caption 8. Corner Correction 9. Docs Viewer Via USB-A* 10. USB/LAN Display*
Accessories	Standard lens, Power Cable, VGA Cable, Remote Control, Wireless Module (Optional)		

* Features are specifically for PCL-LT8000U. * Specifications are subject to change without prior notice.
* Lamp life specification is an estimate based on verification under proper conditions and is not the duration of the warranty.
Lamp will shut-off automatically when usage reaches the specified estimated maximum lamp hours. Service life may vary widely depending on usage and operating environment and conditions, as well as users' adherence to the maintenance and leaning procedures provided in the user manual.

Advanced, Multifunctional Projector –

Ideal for large meeting rooms and theater-like settings

The INFOTO 3LCD PCL-LT8000 serie projectors offers high levels of brightness and contrast, improved installation ease and eco-conscious features in consideration of the environment. Capable of ensuring clear, sharp large-screen presentations in large meeting rooms and theater-like settings, these user-friendly projectors are ideal for impactful, visual communications.

New

PCL-LT8000X
PCL-LT8000W
PCL-LT8000U

High Image Quality

Impressive 7100lm Brightness and 5000:1 High Contrast

The PCL8000 series reproduce vivid beautiful images using 7,100lms brightness at a high contrast ratio of 5000:1. Even in large meeting rooms and theater-like settings, its liquid-crystal projection system ensures clear, sharp presentation images every time.

High-performance Lens

This lens is comprised of 17 lenses in 13 clusters, including a high-performance ED (ultra-low dispersion) lens that is more efficient than regular glass lenses. Image resolution all the way to peripheral borders is greatly improved.

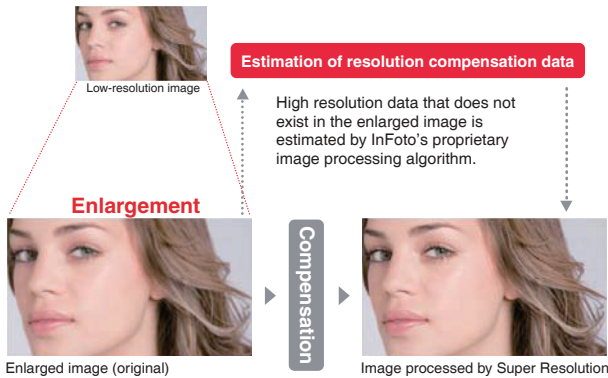

Natural Color Matrix (NCM)

In addition to conventional red (R), green (G) and blue (B) color gradations, the intermediate colors of yellow (Y), magenta (M) and cyan (C) can each be controlled independently. Accentuating specified colors according to need results in the reproduction of vivid color tones one step closer to natural.

Super Resolution

This innovative advanced image processing algorithm is a product of InFoto display. The technology analyzes blurred components of the original images, estimates the high-resolution data not provided in the original signal and corrects the image. The result is the clear projection of images such as people's faces in fine detail.

High Reliability

Inorganic Liquid-crystal Panel

An inorganic liquid-crystal panel is incorporated, increasing the service life compared to that of conventional organic liquid-crystal panels.

4000hr Long-life Lamp*

By optimizing temperature control design, the light-source lamp can be used for up to 4,000 hours. These improvements result in a remarkable reduction in operating cost.

*6000hr in ECO mode.

Lamp Life Comparison

Lamp life specification is an estimate based on verification under proper conditions and is not the duration of the warranty. Lamp will shut-off automatically when usage reaches the specified estimated maximum lamp hours. Service life may vary widely depending on usage and operating environment and conditions, as well as users' adherence to the maintenance and cleaning procedures provided in the user manual.

Roll-up Filter

To help prevent dust from collecting on the liquid-crystal panel, a cartridge-type filter is added as standard equipment. It can be set so that the filter rolls automatically every 500, 750 or 1,000 hours, or winding can be done manually.

Installation Flexibility

Wide-area Lens Shift

The PCL8000 series features a wide-area lens adjustment range of $\pm 60\%$ vertically and $\pm 30\%$ horizontally, for greater installation freedom. The zoom, focus and lens shift functions are all powered operation.

Variety of Optional Lenses

Choose from four different lenses to best match the projection distance. Compared to previous lenses, each lens covers a wider range of projection ratios.

Bayonet Mount

The bayonet mounting system incorporated offers one-touch lens removal, making it easy to change lenses after installation. Simply unscrew and remove the anti-drop cover, press down on the release button and turn the lens to remove it. Similarly, to install a lens, just insert it and turn.

Attractive Design

In consideration of ceiling-mounted installation and appearance in terms of room décor, a modern center-lens, white-based design is adopted and a terminal cover that hides cables has been added. The remote-control signal receiving section is now located on the backside of the projector, improving remote-control operation performance when mounted on the ceiling.

Geometric Corrections

• **Keystone Correction**
Trapezoidal distortion caused when the projector is not positioned directly in front of the screen is corrected in both vertical and horizontal directions.

• **Cornerstone Correction**
Pixel conversion is used to correct trapezoidal and diagonal distortion that causes oblique images, ensuring the proper aspect ratio.

• **Curved-surface Projection Correction**
Projectors in the series are equipped with a distortion correction function that can be used when projecting images onto curved surfaces. Coordinates at the image's four corners are adjusted, enabling the projection angle to be adjusted at the time of angled or stacked projection. It is extremely handy for unique applications like projecting images onto special surfaces such as pillars at event sites.

360° Projection Capability

Images can be projected over a full 360° range along the vertical axis* including reproduction on the ceiling or floor. The application possibilities are limitless.

*Excluding use in high-altitude mode.

- ID-compatible Remote Control (set IDs for up to 63 projectors)
- Extended-distance Remote Control (wireless: 30m, wired: 100m)
- Lamp side replacement

Eco Friendly

4000hr Long-life Lamp*

A light-source lamp capable of operating up to 4,000 hours reduces both operating cost and labor required for replacing lamps.

*6000hr when used in ECO mode.

Stand-by Wattage under 0.5 Watt

Stand-by (low) mode power consumption is less than 0.5W, offering increased energy savings and further contributing to environmental preservation.

Quiet 30dB Operation

Fan noise during projector operation can be distracting during a presentation or videoconference. The PCL 8000 series projectors operate at a significantly low noise level of only 30dB (i.e., in "low lamp" mode). As a result, presentations and conferences can be held without distracting projector noise in the background.

- 2-Screen mode
- Test pattern
- Direct power off
- Closed caption support
- High-altitude mode (1,500 to 2,700m)
- Virtual DICOM mode
- OSD menu multilanguage compatibility

*OSD Languages: English, German, French, Italian, Spanish, Dutch, Portuguese, Simplified Chinese, Japanese, Korean, Russian, Arabic, Turkish, Finnish, Vietnamese, Thai, Afrikaans, Indonesian, Persian

Additional Features

Network Connectivity

Projectors are equipped with a RJ-45 LAN terminal for remote operation. Additionally, when used with Crestron RoomView™, integrated control of up to 250 projectors including power on/off control, message display and confirmation of lamp service hours is possible. INFOTO PCL-LT8000 series are equipped with AMX Device Discovery for simplified device management and compatible with PJLink™.

The trademarks of PJLink, Crestron and AMX are applied for registration or registered trademarks in Japan, the United State, and/or other countries and areas.
